Just For You!

A Teen Library Council

The Terrell County Public Library's Teen Library Council is an advisory board made up of local teens who will meet monthly to discuss library services and programs for their age group.

The Teen Library Council will work with the librarian and library employees to improve materials and services for teens. The council will act as an advisory board to assist in the purchase of books, magazines, audio books, and videos. As well as a variety of other tasks including, volunteering for special programs and functions, putting on programs for children, creating and maintaining a web site for teens.
